-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 October 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

DETAILED ACTION

Status of the Claims

Claims 1-25 are currently pending.

Claims 1-19 are under consideration.

Claims 20-25 are withdrawn from consideration as being directed to nonelected subject matter.

Election/Restrictions

Applicant's election with traverse of Group I (claims 1-19) and the election of seq. Id. 1 as peptide species in the correspondence dated Oct. 22, 2003 is acknowledged. The traversal is on the ground(s) that if the compositions are patentable then the methods for their use are patentable as well. This is not persuasive for the reasons provided in the lack of unity/election requirement e.g. the compounds do not share a "special technical feature" since Group I compounds are known in the prior art. Applicant additionally requests future rejoinder pursuant to *In re Ochiai* (e.g. re-introduce withdrawn claims encompassing allowed composition limitations). Applicant is free to rejoin the method claims commensurate in scope to the allowed subject matter.

The requirement is still deemed proper and is therefore made FINAL.

Claims 20-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Young et al. US Pat. No. 5,376,638 (12/94).

Young et al. disclose amylin antagonist compounds within the scope of the presently claimed invention (e.g. see patent seq. Id. No's, especially 6-9, 15 and 24-28) which can be used to treat hyperglycemic disorders including diabetes (e.g. see patent claims 1-9, and col. 1, lines 35-45; col. 5, line 45-col. 6, line 23). .

Art Unit: 1639

Allowable Subject Matter

Claims 7-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
